

B-127 VERANDA

Flexible conservatory awning

The B-127 Veranda is also available with an extension up to 1,25 m, which provides additional frontal sun protection.

THE FLEXIBLE AWNING

The B-127 Veranda is a **flexible conservatory awning** system where the guides can be installed up to 1 m in from the edges of the conservatory. Thanks to the unique design of the B-127, conservatories with **bevelled corners** can be completely covered. The B-127 is also available with an **extension** up to 1,25 m over the front of the conservatory, which provides an added benefit frontal sun protection. The **motorized** conservatory awning B-127 offers a maximum width of 6 m, projection of 5 m and fabric surface area of 22 m². The B-127 is also available under the reference B-127 Pergola (see page 28).
