

BRUSTOR®

B-38 AND B-38 PRESTIGE

For maximum shadow

The awning can be operated via remote control

The valance of the B-38 (Prestige) disappears completely into the lead rail...

... or provides extra shadow and privacy.

IDEAL WHEN THE SUN IS LOW

The B-38 Prestige is a **wind class 3 folding arm awning** with a **variable valance that can disappear completely** into the lead rail. This valance has a **drop up to 1,3 m** therefore offering extra privacy and perfect protection from the low sun. The awning and variable valance can be controlled with one single **remote control**. In option, this remote can also control the built-in **LED lights** and **electric heater**. The B-38 Prestige is available with a width up to 6m with a maximum projection of 3 or 3,5 m.

The B-38 is a variant with a **projection of 1,50 to 3,50 m** and will withstand **wind speeds up to Beaufort scale 5** (wind class 2). The **remote control** is an option, just as the **LED lighting in the elbow**.
