FOLDING ARM AWNING
SCRIGNO 250

Gibus Australia
www.gibus.com.au

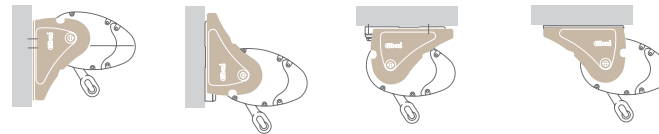

The Scrigno 250 cassette awning is designed to provide optimum sun and weather protection whilst complementing any external facade with its minimalist appearance.

The unique folding arm design means that the awning does not require any posts or frames and therefore keeps the area below completely free from obstruction. The awning provides complete coverage, and when not use retracts neatly back into an enclosed cassette which protects and prolongs the fabric life.

Wall & ceiling mounting options

DIMENSIONS

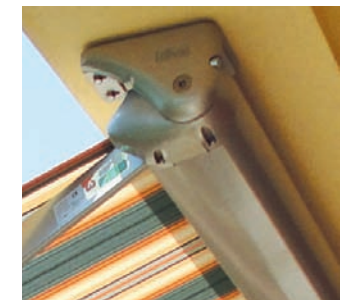

Min Width	2,400mm	Min Projection	1,500mm
Max Width	5,500mm	Max Projection	3,000mm

FEATURES & BENEFITS

- Ability to provide sun & weather protection for patios, terraces, balconies & outdoor entertainment areas.
- Sealed cassette protects fabric when retracted whilst hiding arms & components from view.
- Robust design with heavy-duty folding arms enables excellent fabric tension & support.
- Pitch control allows the awning angle to be adjusted to provide an optimal level of protection - range from 0° to 90°
- Integrated front rail gutter ensures water does not accumulate on the awning fabric.
- Tested to withstand winds that exert a maximum pressure of 70Nm or similar to a persistent wind speed of 38km/hr.
- Manufactured from high quality anti-corrosive materials - extruded aluminium & 316 marine grade stainless steel.
- Versatile mounting options - reversible brackets allow awning to be mounted to a wall or ceiling.
- Awning frame available in Dulux Duralloy & Interpon D1000 powder coat colours.
- Motorised (240v tubular motor) with remote control.
- 5 year manufacturers warranty.

OPTIONAL EXTRAS

- Raya LED light bar - fixes to wall underneath awning.
- Sun/wind or motion sensor.
- Electric heater.
